

Hima of Uganda

2025 Status Update

How God Is Working

Older documents identified the Hima as a significant unreached and unengaged people group in southwestern Uganda. However, current interviews and research confirmed that the Hima do not have an identifiable presence in Uganda. A smaller population of Hima live in the neighboring Democratic Republic of the Congo (DRC), and they have been engaged with the gospel. We're grateful for the research that informs our gospel proclamation efforts.

How You Can Pray

- Pray that more Hima in the DRC will respond to the gospel.
- Pray for church planters in Uganda as they strive to see healthy churches among all people groups in their country.
- Pray that IMB researchers can continue to learn about people groups to inform our ministry efforts.
