

PRAY FOR THE SUBA OF TANZANIA

If you had to choose between coming face to face in the water with a hippo or a shark, what would you choose? Did you know that the average amount of shark related deaths a year is just 10, while hippos are responsible for 500 deaths a year?! In fact, the hippo is the deadliest land mammal in the world, even more than lions, tigers, and bears. Oh my. Due to their highly aggressive and territorial nature, a hippo won't hesitate to attack a human, especially if it's a mama protecting her baby. That might make you think twice about swimming in a hippo infested river in Africa, right?

In the beautiful country of Tanzania, there is a people group of 226,000, who have not yet been reached with the true gospel called the Suba. The Suba were renowned hippo hunters before it was against the law to kill wild animals! They were also known for fishing and boat building, but today farming is growing as an occupation, and cattle are kept mainly to provide the payment of a bride price. The Suba have a strong interest in preserving their culture and language. The Suba do have access to written Scripture in their language.

Pray that God would use His Word, which is already available in a translation the Suba can understand, to draw many people to Himself. Ask God to send workers into this harvest field, to spread the message of hope to a people living in darkness.

Don't forget to pray for the Suba children, too! The God who made the hippo, and the shark, and lions, and tigers, and bears, who holds all things together, made the Suba too. He knows them. Let's ask the One of whom alone can be said, "tremble before Him, all the earth (Psalm 96:9)," including the ferocious African hippo, that He alone would receive the glory due His name among ALL PEOPLES!
