AS A COUNTRY
CATALYST

Mobilize a Country

There is a legacy of gospel work in many African countries, yet there are still areas where people either do not have access to the gospel or are not actively sharing it with others. You will evaluate a country as a whole and work to mobilize, train and equip partners to be on mission. First you will identify unreached peoples and places. Then, working with churches and networks, you will create a strategy to see those peoples and places holistically engaged with the gospel.

Service Opportunities

Serve as a country catalyst in:

- Zimbabwe
- Togo
- Côte d'Ivoire (Ivory Coast)
- South Sudan (previous field experience required)

GO
