

Zande of South Sudan

2025 Status Update

How God Is Working

We've discovered that the 860,000 Zande in South Sudan—farmers who practice a mix of African Traditional Religion and Christianity—are engaged by thriving Episcopal churches and other evangelical partners. Local partners are evangelizing, making disciples, and training leaders. The full Bible has been available in their language since 2007. The Zande can also access God's Word through audio recordings and the Jesus Film.

How You Can Pray

- Thank God for the churches that are working among the Zande.
- Ask God to reveal the lies of African Traditional Religion and turn people's hearts toward him.
- Pray for solid biblical discipleship throughout this people group.
