

# Konongo of Tanzania

## 2025 Status Update

### Challenges We've Found

The Konongo people are mostly Catholic and Moravian, but they have no indigenous Konongo church. The Moravian church has had a long-standing work in their area that stretches back some 50 years. However, syncretism is prevalent. Mixing animism and Christianity is quite common in the region where the Konongo live. Alcoholism is also pervasive.

### How You Can Pray

- Ask God to heal the Konongo from alcoholism and its damage to relationships, families, and communities.
- Pray that they will turn away from African Traditional Religion.
- Pray that the pure gospel will be proclaimed among the Konongo.
