

# Salampasu of DRC

## 2025 Status Update

### How God Is Working

After two years of Bible storying training, a small group of Salampasu believers is working to train more people. The Salampasu are responding and obeying the Word of God. Families have been restored through confession and forgiveness. However, challenges among the Salampasu remain. African cultural ideals take precedence over a biblical worldview. Cults, idolatry, false teachings, and tribal divisions make the true message of Christ difficult for many to hear.

### How You Can Pray

- Pray for resolution of conflicts in families and in the society, even between pastors and churches.
- Pray for unity and the courage to overcome traditional customs.
- Ask God to send a spiritual revival.
