

Chikunda of Zimbabwe

2025 Status Update

Challenges We've Found

The Chikunda primarily farm along the Zambezi River. Many Chikunda believe that ancestors are their mediators to God. The pastors in the several churches in their villages mix ancestral and traditional worship with church programs. Most Chikunda see nothing wrong with this syncretism. Extreme poverty and a polluted understanding of the gospel are major challenges.

How You Can Pray

- Ask God to send more missionaries to proclaim the gospel, disciple believers, and plant healthy churches.
- Pray that the Chikunda will trust in God alone and break from animistic traditions.
- Pray that churches among the Chikunda will proclaim the gospel without error.
