

Ndengereko of Tanzania

2025 Status Update

How God Is Working

Western missionaries have attempted to reach the Ndengereko for decades but have faced resistance. However, a Tanzanian family has been working in Muhuro since 2017. After Cyclone Hidaya struck Muhoro in 2024, 900 families received food from Send Relief, which opened doors for sharing the gospel. A Muslim community leader expressed gratitude, saying, “We will remember your love and care. You are welcome back.” Some Ndengereko have since come to faith and joined the church.

How You Can Pray

- Pray for the Tanzanian family as they continue their work among the Ndengereko.
- Thank God for the partnership of the Southern Baptists through Send Relief.
- Praise God for the new believers among the Ndengereko.
