

Bisa of Côte d'Ivoire

2025 Status Update

Challenges We've Found

The Bisa are mainly farmers in West Africa who practice a mix of Islam, animism, and ancestral worship. Conversions are rare due to persecution and rejection. In 2001, the Bible was translated into the Bisa language, which is spoken by more than a million people. IMB missionaries have shared their vision with Ivorian believers to reach the Bisa with the gospel, and a like-minded organization is also planning to engage them.

How You Can Pray

- Ask God to send people to explore the remote areas of Côte d'Ivoire to find and learn about the Bisa.
- Ask God to create gospel opportunities through relationships and outreach.
- Pray for the Bisa to believe the gospel, placing their faith in Jesus alone.
